Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: We discussed the amendment made in the reply filed on 06/27/2003 and we discussed the difference of the glass substrate defined in the claims versus those in the prior art references. An affidavit may be helpful in this matter. It was agreed the limitation regarding the glass substrate is directed to the physical properties of the glass substrate itself. The examiner will consider the claims further upon formally reviewing the amendment filed on 06/27/2003. However, the amendment will not be entered because claim 1 changes the scope of the dependent claim 22 thereof and newly added language to independent claim 9 changes the scope of claims 9 and 11 which requires further consideration and/or search.
